NOISE STATEMENT
TEXTRON MODEL 208B CARAVAN
S/N 208B5587

The aircraft identified on this document was produced in compliance with the approved Type Design identified in FAA Aircraft Type Certificate No. A37CE and Type Certificate Data Sheet No. A37CE, Revision 22.

The Federal Aviation Authority of the United States of America does not issue certificates for compliance with noise limitations identified in Chapter 14, Section 1, Subpart 36, of the Code of Federal Regulations, generally referred to as FAR Part 36. The current requirements of ICAO Annex 16, Chapter 10, are identical to the noise limitations set forth in FAR Part 36.

The Textron Model 208B Caravan has demonstrated compliance to the noise limitation requirements of FAR Part 36 and was granted Type Approval with issue of Type Certificate Number A37CE to Textron Aviation Inc..

At the time of Original Airworthiness Certification on **Mar 05, 2020**, the aircraft identified on this document was in compliance with 14 CFR 36, Amendment 28 and ICAO Annex 16, Amendment 10 with demonstrated noise limitations of 84.1 dBA. Any subsequent alterations or modifications to this aircraft may invalidate this compliance.
